

## Epiphany

by [Sarah Rossiter](#) in the [January 30, 2019](#) issue

After the Birth,  
The season of light—  
Out of the darkness,  
The moonflower opens,  
Luminous, petals  
Unfurling in the night,  
As the star beckons,  
Guiding us across  
The lunar landscape  
To the stable lit  
By new life, a candle  
Cradled, light bearing  
Light.
