

why would My Son

by [Carl Winderl](#) in the [August 28, 2019](#) issue

care

to be

a shepherd, The Shepherd

to sheep

those foul, obstinate

foolhardy & dumbest of

creations by

His Heavenly Father

for example, their wool's

a catch all

for everything

ever so contradictory to

their very well-being

for near & dear

to them in their once

fluffy fleece

can be found the likes

and dislikes of

mud, burrs, sticks,

ticks, lice

and clotted manure,

which only a

close shearing

can provide relief &

release from the

metaphor of a
human being stubborn
in sheep's clothing
