

Auto-Correcting gGod

A typo can flip the script:

Theist -> Atheist.

Just like that—

God? Gone.

Agnostic?

Lose the “a,”

suddenly

you *know* everything.

Moral?

Oops—

Now you’re *amoral*.

A tap too quick,

A tiny space misplaced,

and the whole cosmos misfires.

So maybe—

read and

tread

more carefully.

Live as if

each letter,

each small silence,

is ~~scared~~

sacred.
